OBJECTIVE

Hello !! I am Abdul Aabid Khan. I am currently a btech student in Trident Academy of Technology. I love to spend time on web and that's the thing which inspires me to become a web developer. I started my journey as Reactjs developer and done three Internships. Further I have done personal projects on MERN stack and want to get a opportunity to work as web developer. Apart from web development, problem solving and competitive programming was always my first priority. Recently, our team have won Hackthon held on Bhubaneswar and grabbed first prize in it.

EXPERIENCE

Qubit capital
24th May 2021 - 6th Aug 2021
Reactjs Intern
I have handled frontend using react js and worked on different projects. Made the whole project customizable so that component can be used again and again.

Parva
7th march 2021 - 7th may 2021
Reactjs Intern
I have worked there as Reactjs Intern. My main work was to manage the frontend part of their official website "Parva" which is basically a social platform for organizing events.

Updapt CSR
19th Oct 2020 - 19th Dec 2020
Reactjs Intern
I have worked there as Reactjs intern. I have designed e-commerce website and worked on charts in dashboard section.

FaithInAI
19th Sept 2020 - 18th Oct 2020
Reactjs Intern
I have designed a restaurant website using Reactjs. Worked on frontend and design and functionalities.
